Core Values

## **Mueller's Core Values**

### **Love Learning**

We believe in the passion to share knowledge by seeking opportunities to develop and deepen student understanding through enthusiastically embracing a path of inquiry.

We understand that all kids can learn and choose to guide our students to meet high expectations through thoughtful, creative lesson preparation and by fostering critical thinking opportunities.

### **Radiate Joy**

We believe that positivity comes from within and we must share that with the world.

We support a cheerful disposition, finding the positive in all situations, and possessing a courteous spirit.

### **Live the Golden Rule**

We believe in respecting ourselves, others and our surroundings.

We practice honoring ourselves and others through words and actions, believing in the good of all people, and appreciating the value of diversity.

### **Serve Others**

We believe in providing a welcoming and supportive environment for all.

We encourage extending compassion, taking action based on what you feel in your heart, and having a "how can I help" attitude.

### **Practice Mindfulness**

We believe in being aware of the world beyond ourselves and that our actions impact others.

We strive to pay attention to our actions and how they affect others, make conscious decisions that positively affect others, and allow feelings to exist without allowing them to drive our actions.

## **Parent Core Values**

### **Love Learning**

We will be a model for our children by continuing to learn. We will support our children's Love of Learning by reading together and encouraging them to read on their own. We will seek opportunities to continue learning beyond the classroom.

### **Radiate Joy**

We will provide a positive home environment by bringing joy to others, having a sense of humor, being able to laugh at ourselves and celebrate our successes together.

### **Live the Golden Rule**

We will model respect by treating others the way we would like to be treated; including those who are different from us. We will respect ourselves, others and our surroundings.

### **Serve Others**

We will model service by listening, being helpful and kind.

### **Practice Mindfulness**

We will provide a safe environment for our children to express their feelings. We will teach them how their choices affect themselves and others.

## **Student Core Values:**

### **Love Learning**

I will come to school ready to learn.  
I will always do my very best.  
I will set goals to guide my success.

### **Radiate Joy**

I will smile. I will have an attitude of gratitude.  
I will have good sportsmanship.  
I will choose to be happy.

### **Live the Golden Rule**

I will respect myself, others, and property through my words and actions.  
I will look for the good in all people.  
I will show appreciation to people who are different from me.

### **Serve Others**

I will include everyone.  
I will encourage others.  
I will help others.  
I will share my abilities with others.

### **Practice Mindfulness**

I will stop and think about how my actions affect those around me.  
I will allow my feelings to exist without letting it drive my actions.
