

**Reflex Math** helps students of all ability levels to develop fluency with their basic facts in addition, subtraction, multiplication and division. The program monitors each student's performance to maximize student success. It is a fun game-based program students can access from anywhere there is an Internet connection.

How to access: Go to [www.reflexmath.com](http://www.reflexmath.com) and click on the launch button. Students then enter their login and their password.

**Think Through Math** targets critical thinking skills and is designed to prepare students for rigorous instruction. Students work at their own pace on individualized lessons that address gaps in learning. Think Through Math offers live student support so that they receive intervention when they need it. Students can click on the coach button at anytime during a lesson and get feedback from a certified teacher.

How to access: Go to [http://lms.thinkthroughmath.com/users/sign\\_in](http://lms.thinkthroughmath.com/users/sign_in) and enter your login and password.

**Think Central** will allow students to access our new math textbook from home. This website also has math games and videos that will reinforce student learning at home.

How to access: Go to <http://www-k6.thinkcentral.com/ePC/start.do> and enter your login and password.
